

**Steady and continuous steam**

The iron's continuous steam output gives you the perfect amount of steady steam for better crease removal and wrinkle-free ironing results.

Product Benefits & Features**Goodbye stubborn creases**

Use the powerful steam shot when tackling those difficult wrinkles in hard-to-reach areas. The iron offers a strong steam boost to enable you to easily remove even the most stubborn creases.

- No. of programs
- Non-stick soleplate
- Self-cleaning
- SafeTouch indicator
- Continuous steam rate (g/min)
- Steam shot (g/min)

**Steam vertically**

Steaming upholstery and drapes has never been easier with the vertical steam function. This function is also convenient when you don't have an ironing board at hand. Switch between horizontal and vertical steaming, for a convenient, effortless experience.

**Hot soleplate indicator**

The temperature sensitive SafeTouch indicator will let you know when the iron is safe to grab. When the indicator is red, the soleplate is hot, and when it turns off again, you can touch it without the risk of burning or injuring yourself.

Goodbye drips and leakages

When the temperature of your iron is too low to create steam, the AntiDrip system cuts off the supply of water automatically to avoid any drips from the soleplate. With this smart feature, you can bid goodbye to water stains and wet splotches.

Convenient AutoClean function

The AutoClean function cleans the insides of the iron effortlessly and prolongs the life of your iron. When the AutoClean function is activated, hot water and steam is ejected from the holes in the soleplate along with any impurities and scale.

Product Specification

Included accessories	Water jug
Controls	Manual & buttons
Main colour	Blue
Water Tank Capacity (L)	0.25
Depth (mm)	132
Depth (mm)	116
Frequency (Hz)	50/60
Height lid closed	143
Height (mm)	157
Product type	Steam irons
Voltage (V)	220-240
Gross product weight (kg)	1.28
Net product weight (kg)	1.04
Width	274
Width (mm)	298
Material	Plastic
Total wattage (W)	2300
