

**Bright and clear LEDs so you can easily choose the flame level**

The bright LEDs of the FlameLight Gas Hob inform you when a burner is on or off. They also let you confidently control and choose between nine levels of flame power, so you can easily select the intensity of the flame whenever you cook.

**Product Benefits & Features**
**Easily select the flame intensity with the vivid FlameLight LEDs**

Confidently control how much power you are selecting with the bright FlameLight LEDs. Their vividness makes it easy to see and choose flame intensity levels 1 through 9. FlameLight also lets you know when a burner is off or on.

**Reliable cooking with StepPower**

Manage the flame on your gas hob precisely with our StepPower controls. Select a heat level from 1 to 9, making it easy to set the right power without having to bend down to look.

**Hob2Hood® - automatically turns on the hood and adjusts fan speed**

The responsive Hob2Hood® feature automatically turns on your cooker hood and wirelessly regulates the extractor fan. Giving you the freedom to focus more on making delicious dishes.

**Easily keep track of your cooking task with the Minute Minder**

Set the Minute Minder to help bring out the best in your cooking, no matter what's on the hob, from the simplest boiled egg, to a smooth creamy risotto. You can use it to time other kitchen tasks too, like marinating meat or proving dough.

**LED Indicators let you know if your hob is still hot**

To give you more reassurance when cooking with gas we've added two important extras. LED Indicators tell you if a burner is turned on or off. And residual heat indicators show whether pan supports are still hot after use.
