

Your everyday, washed with care

Our excellent PerfectCare 600 washing machine with SensiCare System adjusts the length of the programme to the size of the load, using less energy and water and preventing any item from being washed for too long. Enabling the most economical cycles for even your smallest loads.

Product Benefits & Features

Tailored washing means perfect results with SensiCare

Our SensiCare system automatically adjusts the programme's settings to suit the size of the load. Smart sensors reduce the time, water and energy used, meaning even small loads are washed with precision. For an effective clean without any risk of wear and tear.

Less energy, more time

Our Eco TimeManager let you adjust the length of the wash cycle to the time you have available. Saving you both time and energy with absolutely no compromise on the thorough wash your clothes receive.

Clean clothes when it's convenient

Adjust the start of the cycle to suit your schedule with the delay start function in the washing machine. The laundry will be ready to unload when you are ready to unload it, keeping it as fresh and as fragrant as possible. It's the most convenient way to clean.

Easy loading and unloading

This high-capacity washing machine has an extra-large opening, which makes loading and unloading your laundry a whole lot easier – even bulky items such as blankets.

Electrolux washers are certified by the Woolmark Blue

Electrolux washers are certified by the Woolmark for the gentlest care of hand-wash only woollens. Our machines are even gentler than traditional hand-washing.

- Silk program designed specifically for silk with gentle wash and adapted spin cycle
- Maximum spin speed: 1200 rpm
