

Your unique kitchen – tailored to suit you

Combine this modular hob with other modular hobs from Electrolux to build your own tailored mix of cooking methods – choose from gas, induction and radiant.

Product Benefits & Features

Robust, long-lasting support when cooking, for every meal

This gas hob features high-quality cast-iron pan supports. With such sturdy supports, you will have a robust and stable base for cooking, for a long time to come.

More flexibility for using pans of different sizes

Because this hob has two different sizes of burner, it gives you more flexibility for using your different-sized pots and pans more effectively.

Automatic hob ignition allows you to get started without delay

By cleverly combining heat control and the ignition in one push-and-twist button, you can fire up your hob instantly and get cooking in no time.

A practical solution gives you peace of mind

If the flame of your gas burner is accidentally blown out, this hob's innovative technology can detect it, and automatically cut off the gas supply.

The wipe-down surface

The ceramic glass surface of this hob is so easy to clean. A simple wipe, and you are done.
